June 2019 Home Dialysis QIA Project Update

Home Dialysis QIA Goal:
Demonstrate a 2 percentage point improvement in the number of patients using a home modality.
  ▪ Home Dialysis QIA Facility Feedback Reports will be sent out to all project facilities. Review and track your facility’s progress.

Going for the goal!
Shout out to the following facilities for achieving their goals and going for the stretch goals.

- Woodland Park Dialysis Center
- DaVita Brooklawn Dialysis
- Bergen Renal Home PD Center
- FKC Marlton
- Wellbound of Mercer
- Hudson Home Therapies
- Renal Center of Carolina
- DaVita Woodbridge Dialysis Center
- FMC John J De Palma Renal Center

Falling behind the target? Conquer the challenge! Consider the following:
  ▪ Have you addressed all the areas you identified in your facility self-assessment?
  ▪ Have you discussed the project in QAPI?
  ▪ Have you engaged your team?
  ▪ Have you engaged your patients?
  ▪ Have you visited QIRN3 Home Dialysis Project webpage for tools and resources?
  ▪ Have you visited ESRD NCC QIA Project webpage for resources?
  ▪ Are you participating in the required QIA reporting, project and ESRD NCC LAN calls?
    ✓ Please be reminded that participation in Network Activities is required under the CMS Conditions for Coverage, V772 (i) Standard: Relationship with the ESRD network.
    ✓ Contact Network representative to find out your facility’s project status.

Our patient SMEs speak! April Beyond Engagement Results
  ▪ Social Worker and Home Ambassador to continue to educate patients on home modality options.
  ▪ Two patients want to provide peer support. They will be designated as patient representatives.
  ▪ SME stated that he feels each patient is educated on a regular basis regarding home modality options but feels there is lack of patient desire or support to do home dialysis.

For questions, please contact Virna de la Cruz at 609-490-0310 Ext 2427 or email vdelacruz@nw3.esrd.net.
