

SUGGESTED TRANSPLANT INTERVENTIONS TO TRIAL

1. Conduct staff education on transplantation
 - [UNOS Kidney Transplant Evaluation and Listing](#)
 - [“Applying Best Practices to Designing Patient Education For Patient With End Stage Renal Disease Pursuing Kidney Transplant”](#)
 - [Kidney Donor Profile Index \(KDPI\) Guide for Clinicians](#)
2. Review/ trial [5 Diamond Transplantation Module](#) for staff education
3. Provide patient/family transplant education
 - Road to Kidney Transplant [English Version](#)
 - Road to Transplant [Spanish Version](#)
 - [“Your Guide to the Transplant Process”](#)
 - [Why Transplant is a Good Idea for Me!](#)
 - [Explore Transplant – My Transplant Coach](#)
 - [Fixing Paco: Kidney Transplant as a Treatment Option, Living Donation, and the Importance of Proactive Patient Involvement](#)
4. Early patient education on modality (e.g. within two to four weeks of admission) with scheduled follow up session as needed
5. Collaborate with transplant center, organ procurement organization (OPO) to host transplant education day/lobby day/living donation education for patients and/or staff
6. “Transitional Care” orientation model for new patients
7. Peer to peer mentoring for patients
 - [NKF Peers](#)
 - [Becoming a Peer Educator](#)
 - [Your Life, Your Choice – Stories From Kidney Transplant Patients and Donors](#)
8. Review, revise or initiate transplant designee role and responsibilities in facility
9. Explore staff “modality champion” program to support patient modality education and referrals
10. “Talking About Transplant—Questions to Ask Your Patients: A Guide for Dialysis Technicians” for staff education - see resources for downloadable brochure
11. Distribute other educational tool (corporate, Network, transplant center, UNOS, etc.)
 - UNOS Multiple Listing
 - [English](#)
 - [Spanish](#)
 - UNOS Kidney Allocation
 - [English](#)
 - [Spanish](#)
 - [NKF Multi-Listing for Kidney Transplant](#)
12. Trial “interdisciplinary patient rounding” approach to discuss modality education and referral.
 - IDT members discuss modality with patients during rounds and care conferences
13. Collaborate with IDT, a champion facility, Network or transplant center on improving referral process
14. Work with IDT/other partners to adopt, develop or refine a transplant referral tracking system to facilitate communication among facility staff and outside partners.
