

# MY TRANSPLANT WAITLISTING PLAN

Step #	Step Name	Date Scheduled	What does this step mean for me?	Completed	
				Yes	No
Step 1	Education and interest in transplant		Talk to your dialysis team to learn more about kidney transplantation. Prepare to ask questions.		
Step 2	Referral call to the transplant center		Get the transplant center contact information and schedule an appointment. Your dialysis team can help you make this referral call.		
Step 3	First visit to the transplant center		You will meet the transplant team. Prepare for this visit. Bring information that may be required of you. Potential living donors may be able to attend for information or orientation.		
Step 4	Transplant center work-up		Schedule and complete your required testing timely. Your transplant and dialysis teams can assist you in making the appointments. Keep in mind that all tests are necessary for determining if you are a candidate for transplant.		
Step 5	On waiting list or evaluate potential living donor		<b><i>Congratulations!</i></b> You made it to the transplant waiting list! It is important to stay healthy. Update the transplant center and the dialysis center for any <b><i>address, phone, medical and insurance coverage changes</i></b> . Identify potential living donors and have them call the transplant center.
