Tips in Hosting a Successful Transplant Lobby Day with Kidney Transplant Mentor

- Place the request for a volunteer kidney transplant mentor with the [NJ Sharing Network](#) at least 2 weeks ahead of the planned lobby day.
 - The time when a volunteer should be present at the facility is discussed when a request is made.
- Promote the event by posting flyers or posters.
- Hold the event in a location in the facility comfortable for the mentor and the dialysis patients to engage.
- Have educational materials from the transplant centers, your organization, ESRD NCC and others
- Follow up with interested patients individually.
