

2022 Transplant Designee Symposium

Behind Closed Doors: An inside look into the world of kidney transplantation

Friday, May 20th • 7:45 a.m. – 3:00pm

Virtual

Purpose: The day will focus on the critical role you play as a transplant designee to enhance your patients' lives through transplantation. This multidisciplinary symposium will empower you as healthcare professionals who want to implement the role of a transplant designee. You will specifically learn about renal transplantation as a treatment modality for your CKD patients. The symposium is designed for administrators, dialysis nurses, social workers, patient care technicians, and dietitians.

Learning Outcome:

Incorporate current, evidence-based information regarding transplant in the care and education of patients experiencing chronic kidney disease and actual or potential transplant and their families.
