

## TRANSPLANT QIA PDSA WORKSHEET

### ROOT CAUSE ANALYSIS (RCA) RESULT:

What is the top barrier you believe prevents patients from transplant wait listing at your facility? (This will be the focus of your monthly PSDA cycles):

Identify which of the **6 Steps in the Transplant Process** you are addressing in the identified barrier.

1. Patient interest in transplant
2. Referral call to transplant center
3. First visit to transplant center
4. Transplant center work-up
5. Successful transplant candidate
6. On waiting list or evaluate potential living donor

### PDSA CYCLE DOCUMENTATION:

#### PLAN

- Describe your monthly plan to improve the identified barrier (include details such as who, what, when)?

---

#### DO

- Describe the intervention(s) you did this reporting month to increase transplant patient wait list and what did you observe?

---

#### STUDY

- Did you achieve the plan's goal with this month's intervention(s)?
- **Yes or No**

---

#### STUDY

- Take a moment to think about your intervention(s) this reporting month. What did you learn about the effectiveness of the intervention(s)?

---

#### STUDY

- What barrier(s), if any, did you discover when implementing the intervention(s) this reporting month?

---

#### ACT

- What are you going to do for your next PDSA cycle?
- **Accept? Adapt? Abort?**

**ACT (ADAPT)** - Document your adjusted plan for NEXT month.

---

**ACT (ABORT)** - Document your new plan for NEXT month:

---
